

Began 2006

for *adaptive* community responses to the deeply
interconnecting challenges of

- climate change
- end of cheap fossil fuel energy, and
- economic contraction

Convergence

Economic Instability & Inequity

Global Warming

Resource Depletion

Four Key Assumptions:

- better to *plan for* energy descent impacts than be taken by surprise
- *resilient* practises will best meet the converging challenges or shocks
- act from our local abundance - now.
- invite the collective gifts and wealth of the community forward to achieve ways of living that are more enriching, satisfying and connected

WHAT DOES TTP DO?

CELEBRATE local food & culture

SUPPORT/PARTNER WITH OTHERS

e.g. 4 Our Grandchildren for the Climate Rally
